Public Land Classification

The Public Land Classification dataset is the authoritative source for information on Tasmania's Crown Land Reserves. The layer includes all reserves over Crown Land proclaimed under the Nature Conservation Act 2002, Forest Management Act 2013 and Crown Lands Act 1976.

This dataset has been derived from The LIST CadArea (Cadastral Area) table within The LIST cadastral model. These reserves will overlap the Authority Land parcels forming part of the Cadastral Parcels dataset.

The categories of Crown Land Reserves contained within this dataset are as follows:

- Conservation Area proclaimed under the Nature Conservation Act 2002;
- Game Reserve proclaimed under the Nature Conservation Act 2002;
- Historic Site proclaimed under the Nature Conservation Act 2002;
- National Park proclaimed under the Nature Conservation Act 2002;
- Nature Recreation Area proclaimed under the Nature Conservation Act 2002;
- Nature Reserve proclaimed under the Nature Conservation Act 2002;
- Regional Reserve proclaimed under the Nature Conservation Act 2002;
- State Reserve proclaimed under the Nature Conservation Act 2002;
- Public Reserve proclaimed under the Crown Lands Act 1976;
- Permanent Timber Production Zone Land proclaimed under the Forest Management Act 2013. #

Fields will indicate proclamation information for these reserves, together with the official name of the reserve if recorded.

Note: *The Forestry Act 1920 has been repealed and replaced with The Forest Management Act 2013. State Forest under the repealed Act is now called Permanent Timber Production Zone Land. Land dedicated as Forest Reserve under the repealed Act has ceased to be Forest Reserve. The majority of former Forest Reserves are now reserved under the Nature Conservation Act.*
